## Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):

- On behalf of an individual MS4
- On behalf of a coalition

How many MS4s contributed to this report? [ ]

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program (SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

We will continue to increase and document scheduled inspections, based on available manpower, and continue to train municipal employees in relevant positions on stormwater management.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

161 catch basin inspections resulted in 88 catch basins cleaned, with approximately 161 catch basins repaired/rebuilt. All these actions resulted in less flooding and pollution in maintained areas due to a reduction in inflow and infiltration.

C. How many times was this observation measured or evaluated in this reporting period?

(ex. samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

• Yes  ○ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

• Yes  ○ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Catch basin inspections, cleaning, repairs and pipe jetting will be performed and documented as performed throughout each reporting period by available manpower.

The Town will attempt to implement usage of a Checklist to oversee and document proper salt storage, chemical storage, and spills clean-up at Town Storage Areas.
