**EXTERNAL: Do not click links or open attachments if you do not recognize the sender.**

Mr. Schmidt,

As requested, we have reviewed the enclosed report.

We understand that the project includes the replacement of an existing vegetated swale and existing 18" RCP stormsewer system with a 30" HDPE and twin 24" HDPE pipes to meet conveyance of the 10-year storm event per Town Code.

This has the potential to cause impact to the railroad and therefore this work is not permitted without further downstream analysis to include the railroad infrastructure as well as any improvements necessary to safely convey runoff to the Bronx River.

Dear Mr. Viebrock, P.E. and Mr. Blackman:

In furtherance to your email exchange with Brian Simmons of the Town's Bureau of Engineering and the applicant (Mr. Zappi) in January 2020 (1<sup>st</sup> attachment), I am forwarding the attached Subdivision Drainage and Tributary Watershed

Analysis report with a latest revision date of March 16, 2020 (2<sup>nd</sup> attachment), which Mr. Simmons has preliminarily reviewed. Please examine the attached and provide us with any comments, questions, and/or recommendations at your earliest convenience.

Thank you,

**Aaron J. Schmidt**
