Please review the attached submission received on April 7, 2022, and **respond to the Planning Office of the Department of Community Development and Conservation with your comments**, so that they can be forwarded to the applicant and/or Planning Board.

Proposal

A Planning Board preliminary subdivision, steep slope permit, wetland/watercourse permit, and tree removal permit application for a proposal consisting of the subdivision of two (2) existing tax lots, in order to create four (4) zoning compliant lots, for the purposes of constructing four (4) single family residences. Proposed Lot 1 would consist of 58,372 sq. ft. Proposed Lot 2 would consist of 23,753 sq. ft. Proposed Lot 3 would consist of 17,012 sq. ft., and proposed Lot 4 would consist of 14,973 sq. ft. The applicant proposes 20,193 sq. ft. of disturbance on 15-25% slopes (STEEP SLOPES), 9,058 sq. ft. of disturbance on 25-35% slopes (VERY STEEP SLOPES) and 26,002.5 sq. ft. of disturbance on 35%+ slopes (EXCESSIVELY STEEP SLOPES). The applicant proposes to disturb approximately 641 sq. ft. of the 1,236 sq. ft. of regulated watercourse area on the subject property, associated with the proposed piping of the watercourse (stormwater drainage channel), and approximately 29,743 sq. ft. of the 46,235 sq. ft. of regulated watercourse buffer area on the subject property. The applicant proposes the removal of seventy (70) regulated trees, requiring a tree removal permit from the Planning Board. The property consists of approximately 114,110 sq. ft. and is situated on the south side of Old Colony Road, opposite the intersection of Old Colony Road and Midvale Road. The property is located in the R-10 One-Family Residence District, and is designated on the tax map of the Town of Greenburgh as Parcel ID: 8.360-259-11 & 12.

This application has been through several iterations, and the current proposal features various drainage improvements to the site, after consultation with Town staff and Metro North.
